Utilization of Males

Utilization of Females

The BOCC is committed to remain in compliance with the EEOC. After careful investigation, the determination was made that the significant impact on our utilization is attributed to the reclassification of certain positions into different categories and the reduction in force of several departments due to privatization and outsourcing. The impact of the various changes over the last evaluation period, in combination with comparison to 2010 U.S. Census information, leads our organization to believe that future studies with current Census information will display a more accurate picture of our utilization of the workforce.

GOALS
